

Life Sciences Operations Automation

Mushroom Solutions delivers AI-powered automation across life sciences, connecting people, processes, documents and data across Regulatory Affairs, Clinical Operations, Quality, Supply Chain, Finance, and Data Engineering.

RegX and CTOps integrate seamlessly with existing enterprise systems while ensuring accuracy, traceability, governance, and human oversight, reducing manual effort, accelerating execution, strengthening compliance, and delivering measurable business outcomes.

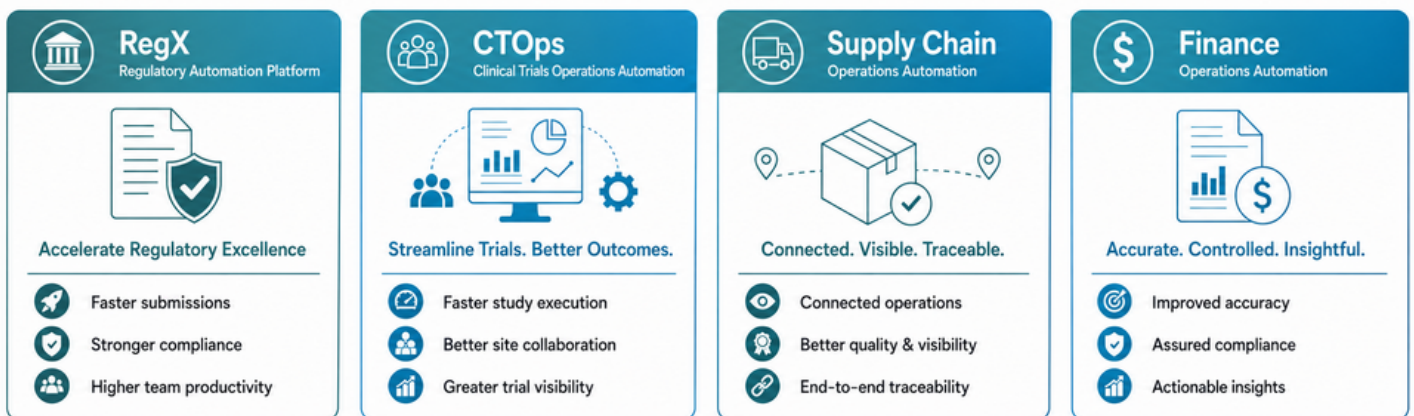

- ✓ Faster Operations
- ✓ Stronger Compliance

- ✓ Higher Productivity
- ✓ End-to-End Traceability

- ✓ Improved Quality
- ✓ Greater Visibility

Intelligence Automation Across the Life Sciences Value Chain

- ✓ Smarter Operations
- ✓ Faster Time to Market
- ✓ Assured Compliance

Data Management & Engineering - Connected Data. Actionable Intelligence

Integrate, govern, and transform enterprise data into trusted information for operations, analytics, AI, and decision-making.

Regulatory Automation (RegX) AI-Powered Regulatory Platform

- Modular
- Connected
- Automated

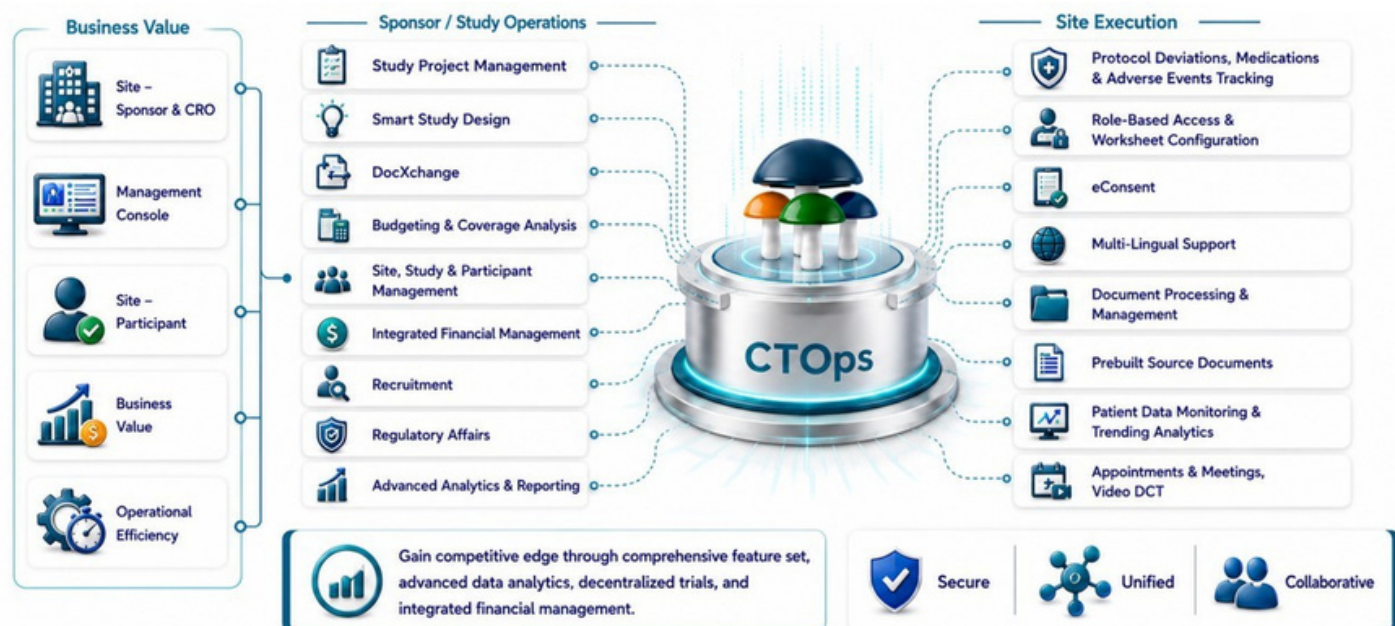

One Platform. One Source of Truth.
Intelligent Regulatory Operations Across the Entire Product Lifecycle

- Standalone or Integrated Module Architecture**
Flexible deployment to fit your operational model

- Automation Layer for Third-Party Systems**
Seamless integration. Intelligent automation. Greater efficiency.

Unified Clinical Trial Management with built-in Compliance and Audit Readiness

Clinical Trials Operations Automation (CTOps)

The Technology Foundation Behind Connected Life Sciences Solutions

Modular accelerators that can be deployed independently or together to power regulatory, clinical, and enterprise solutions.

DocuGenX
Document Intelligence

FlowGenX
Data Lineage & Governance

AProX
Agentic Process Orchestration

MChatX
Enterprise AI Assistants

Identify

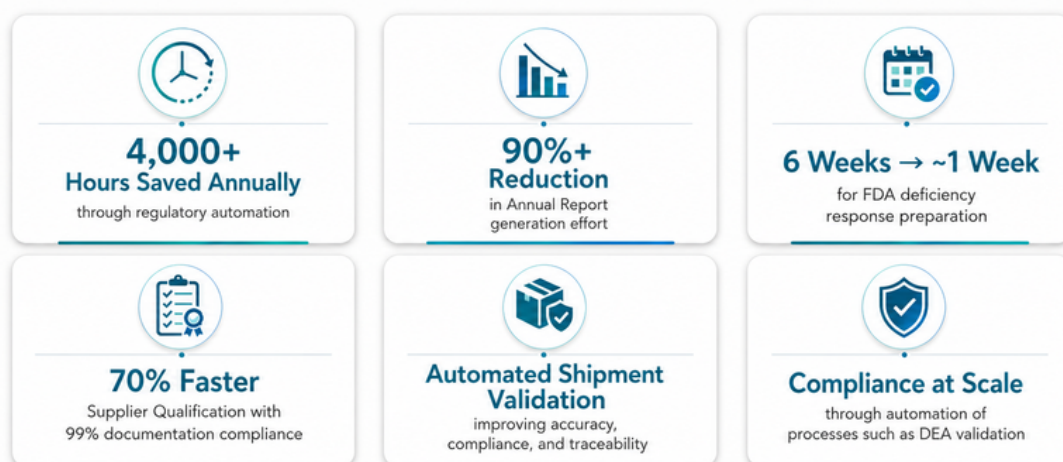

Automate

Measure

Optimize

We identify high-value opportunities, implement AI-powered automation, and measure success against defined KPIs
Aligning technology investments with measurable business outcomes

Proven Business Impact

Mushroom Solutions Value

- Life Sciences Expertise
- AI-Powered Intelligence Automation
- Human-in-the-Loop Governance
- Modular & Flexible Architecture

- Connected Enterprise
- End-to-End Traceability
- Compliance by Design
- Outcome-Focused Delivery
